To Garry Whyte:

We, at OSAID of Bayview Secondary, would like to thank you sincerely for such a wonderful and innovative presentation that you gave to our students on May 19<sup>th</sup>, 2000. The content was wonderful and unique, the words rang out and people were actually listening. The crowd was mesmerized, some of them even relating to the content.

I can safely say that the best part of your presentation was the video of the accident. Several kids were killed while the driver walked away unharmed. Another excellent point in your presentation was when you actually got the kids involved by bringing them on stage. Participation is an important part of any presentation.

You have an excellent way of making kids listen, and that is why we would like to thank you for taking the time to come to our school. We wish you the best of luck in your following presentations, and bringing the message to other schools. We at OSAID would like you to know that you have made a very strong impact on the students, as well as staff. Thank you.

Sincerely,

Dan Mireanu
